No married man in Vienna is allowed to go up in a balloon without the formal consent of his wife and children.

The practice of women changing their names at marriage is very ancient. Ladles of ancient Rome were known by their husbands' names. Thus the consorts of Pompey and Cloero were spoken of as Julia of Pompey and Terentia of Cloero, and women in most countries signed their names in the same way, but after a time omitted the "of." This fashion came into use in Britain after the Roman occupation, but at the beginning of the sevententh contury the custom seems doubtful, for Catharine Parr so signed her name, even after her second marriage, and we always read of Ledy Jane Grey (not Pudley), and Arabella Stuart (not Seymour).
